EDUCATION

Bachelor of Information Technology	*Bayambang, Pangasinan*
Pagansinan State University, Bayambang Campus	*Sept. 2020 – June 2024*
TVL - ICT	*Malasiqui, Pangasinan*
Aliaga National Highschool	*June, 2018 – March,2020*

EXPERIENCE/PROJECTS

FishDroid 2.0 | *php, Flutter, Laravel, javascript, HTML, Tailwind, MySQL*   *June 2023 – Dec. 2023*

- Created the web-based admin panel for managing application content and data, implementing a robust MVC structure and adhering to Object-Oriented Programming principles for maintainability and scalability.
- Developed the Fishdroid 2.0 mobile application using Flutter, enabling users to access a vast database of fish species and utilize image recognition for fish identification.
- Designed and styled the admin panel user interface using Tailwind CSS for an intuitive user experience.
- Established an API in Laravel to facilitate seamless data exchange between the mobile app and the admin panel, ensuring efficient data retrieval and updates.

Alumni Tracking Management System | *php, HTML, Scss, javascript, MySql*   *June. 2022 – Dec. 2022*

- Developed an intuitive web interface with JavaScript and SASS, enhancing user interaction and visual appeal.
- Using PHP and MySQL for web app development, ensuring efficient database connectivity and improved performance.
- Implemented a comprehensive set of features allowing alumni to update their profiles, share accomplishments, and connect with fellow alumni.
- Designed and integrated data visualization tools to provide actionable insights into alumni engagement and contributions.

Web Chat App | *php, HTML Tailwind, javascript, MySQL*   *Nov. 2022 – Dec. 2022*

- Developed a fully functional web chat application from scratch, allowing users to create accounts, log in, and engage in real-time conversations with other users.
- Designed the user interface with HTML, Tailwind, and JavaScript for an intuitive and visually appealing chat experience.
- Created a robust back-end using PHP to handle user requests, messages, and interactions with the database.
- Utilized MySQL for data storage and retrieval, ensuring efficient message storage and retrieval.

TECHINAL SKILLS

Tech Stack: PHP, Javascript, HTML, CSS, Scss, Tailwind, Laravel, Flutter, MySQL

Tools: Git, Github, VsCode, Postman, Figma, Photoshop, AdobeXD

Soft Skills: Willing to Learn, Fast Learner, Self-motivation, Team Player, Communication,

CERTIFICATIONS

TESDA – Computer System Servicing NCII	*January 2020*
FreeCodeCamp – Responsive Web Design	*August 2021*
FreeCodeCamp – Javascript Algorithms and Data Structure	*December 2021*
